Zero Waste Community in Bangladesh

by Environment and Social Development Organization-ESDO

Building Zero Waste Communities for a Pollution-free Environment in Bangladesh- is a project implemented by Environment and Social Development Organization-ESDO in Bangladesh focusing on two major cities Dhaka and Rangpur.

The main goal of this project is to create environmentally conscious rural and urban communities that seek and implement waste management systems to reduce health risks and improve societal and environmental well-being

Zero Waste is a philosophy and a designed principle that goes beyond recycling to take a “whole system” approach to the flow of resources and waste through human society. It attempts to guide people to emulate sustainable natural cycles, where discarded materials become resources for others to use.

by Environment and Social Development Organization-ESDO

Let's Reduce Plastic Waste

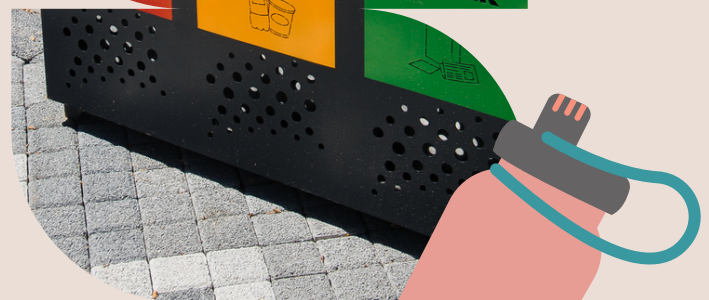

By reducing the use of plastic items, we can help to reduce waste. Try to use cloth bags rather than plastic bags to help maintain the environment.

Separate The Garbage

Try to throw out your trash in properly labeled bins because it's important to separate the garbage to make it easier to recycle it afterward.

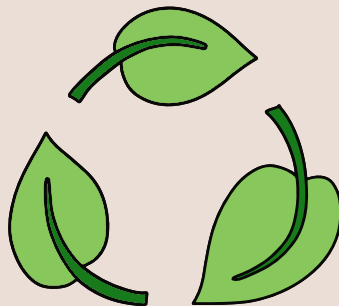

Eco-Friendly Living

Use Bike To Get To Work

By riding a bicycle to work, we can reduce emissions and air pollution to prevent climate change. In addition, we can also promote a healthy lifestyle.

Let's Practice Zero-Waste Food

We can practice zero-waste food by trying to leave behind as little food and packaging waste as possible when cooking and eating.

Animation Documentary Screening on 'Journey Towards Zero-Waste Community'

Environment and Social Development Organization-ESDO in association with Alliance Française de Dhaka organized a Documentary Screening titled 'Journey Towards Zero-Waste' on 25th July 2022 at Alliance Française de Dhaka. The goal of the animated documentary screening on Reduce, Refuse, Reuse & Recycle and Waste Segregation was to demonstrate how adopting the 4R approach may make our life simpler and healthier.

Outstanding actor Azizul Hakim, veteran actress Dilara Zaman, and renowned singer Rezwana Chowdhury Bonna appeared in another video documentary on simple ways to live a zero-waste lifestyle that was also shown at the event.

Honorable Deputy Minister of the Ministry of Environment, Forest and Climate Change, Habibun Nahar, MP graced the event as the chief guest.

E-BULLETIN

Environmental Education Camp for Zero-Waste Community Development

An overview of the zero waste movement and the need to adopt it for a pollution-free environment was covered briefly along with group discussions about potential activities for the students on an Environmental Education Camp organized by ESDO. Students of Lalmatia Girls High School participated in various tasks and

activities, including an art competition on “Rooftop Gardening,” a poster design on “Plastic-free Campus,” and an essay competition on “The Effects of Plastic on Our City Life.”

Environment and Social Development Organization-ESDO organized “Capacity Building Training on Setting up Rooftop Garden” at Lalmatia Housing Society School and College from 21 August to 23 August, 2022.

Capacity Building

Capacity Building Training on SETTING UP ROOFTOP GARDEN

Rooftop Gardening

The training session aimed at sharing practical knowledge among the students as well as their parents on how to set up rooftop garden and how to generate compost from the waste they produce every day. This way the program focused on building a zero waste community and a green environment. The three-day long program was successful with the active participation of the students and their parents throughout the whole program.

As part of the Zero Waste Community project, a capacity building training was conducted from 21 August to 23 August, 2022, with the participation of the students and their parents on rooftop gardening. The aim of the event was to turn the kitchen wastes into wealth, and encourage the community in a zero-waste lifestyle.

Capacity Building Training

Consultation with Service Provider

Environment and Social Development Organization- ESDO, has organized a consultation with service providers at the ESDO head office to discuss about waste segregation and the recycling process. The initiative was undertaken by ESDO's project titled "Building Zero Waste Communities for a Pollution-free Environment in Bangladesh". waste segregation.
